**C1** Scienceplus reserves the right to select papers from the conference for publication in international journals.

**C2** **Publication in Scopus-indexed, Clarivate WoS or other associated journals/proceedings:** on the author's written request, Scienceplus can submit the paper to such journals. Additional charges apply; the author will have to pay the publication cost/APC of the particular journal. Review and publication may take 1 to 12 months.

**C3** Scienceplus acts only as a mediator for publication in associated journals. Authors are encouraged to verify the journal's home page and indexing, using their own sources, before giving any paper to Scienceplus for processing.

**C4** It is the author's sole responsibility to check the journal's ISSN, indexing and impact factor on the journal's home page, Scopus, WoS or other sources.

**C5** Conference proceedings are submitted to the Web of Science Book Citation Index (BkCI) and Scopus for evaluation. Indexing is decided by those agencies and is not guaranteed.

**C6** Scienceplus is not responsible if any journal is later discontinued or declared a clone/fake journal by Scopus, WoS or any indexing or government agency. No money will be refunded for papers published in such journals.

**C7** Fees paid to attend the conference will not be refunded if the registered paper is not selected for a Scopus/WoS journal, or if the author chooses not to publish in an associated journal after the conference.

## D - Plagiarism Policy

The plagiarism policy ensures that authors give due credit to other authors when referencing, and it protects the academic integrity of the research community.

**D1** All papers submitted for publication are checked with plagiarism-detection software to verify their originality and similarity percentage. Papers that fail to meet the criteria are returned to the author for revision.

**D2** If plagiarism is detected just before publication, the author will be given a chance to resubmit the paper after making the changes suggested by the editor. If the editor considers the plagiarism a major issue, the paper will not be considered further for publication.

**D3** If plagiarism or a fake identity is suspected or detected after publication, the paper will be removed until verification is complete. If only a few paragraphs are plagiarized, the author will be given a chance to revise the paper.

**D4** If Scienceplus decides that plagiarism or a fake identity is a major issue in a published paper and it seriously violates the copyright of others, the paper will remain withdrawn, and the author may be blacklisted from Scienceplus conferences.

**D5** Authors who republish their earlier published work (self-plagiarism) will be dealt with by the same procedure.
